AMENDMENT 79/1

CANSIM SERIES DIRECTORY 12-203 E (1979 EDITION)

Attached for inclusion in your 12-203 documentation are CANSIM Series Directory amendments for the period May 1979 to October 1, 1979.

The previous page range amendment process has been changed to reduce page volume and costs associated with production of documentation. Where applicable single pages have been prepared and consecutive matrices have been produced in consecutive sequences to allow users maximum flexibility in maintaining their documentation. In addition steps have been taken to provide end users with fast access to more current information than has been possible in the past. The attached documentation is comprised of two parts:

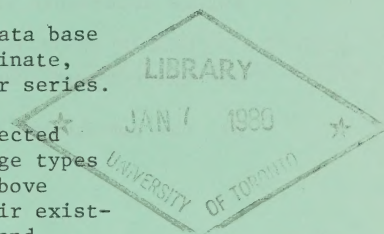

- 1) An Index of the activity on the main data base by type of activity (Add, Change, Terminate, Delete) indicating affected matrices or series.
- 2) The Series Directory pages for the affected matrices. Note that only Add and Change types have been printed. From the summary above users can make written notation in their existing directory copy for the Terminated and Deleted items without the need for replacement pages.

Users interested in more up to date information are reminded that a News Flash Command "NEWS" is available utilizing the CIS (CANSIM Interactive System) and provides user access on the daily operations activity and Main Base status.

In addition, a new Directory Command "DIR" has been implemented and is publicly accessible. This command allows users to survey the activity on the data base and to produce the Index referenced above. As well it allows users to check selected matrices of interest, and produce a Series Directory for selected matrices on a user's terminal should this be required. This file is maintained at least weekly. For further information contact:

12-203E AMENDMENT 79/1

PART 1 - INDEX

CANSIM users are advised to retain this portion of the amendments as it reflects the range of activity on the Main Base from the date of production of the 1979 Series Directory (12-203) in May 1979 to October 1979.

Future amendments will include an index to:

- a) the current changes from last amendment and;
- b) the cumulative changes from initial issue of 12-203
